MEMORANDUM FOR: Director of Personnel

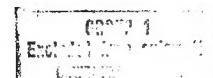

SUBJECT : Retirements Under the CIA Retirement and Disability System

REFERENCE : Memo dtd 6 Aug 70 to ExDir-Compt fr DD/S,
subj: Legislation Pertaining to the CIARDS
Retirement Quota

1. Referent memorandum (attached) points up the necessity of obtaining relief from the currently authorized retirement quota under the CIA Retirement and Disability System or, in the alternative, taking certain administrative action to ensure that the System is administered as . quitably as possible within the quota. It seems reasonable to assume that, with the large number of retirements just processed in order to take advantage of the 1 August 1970 cost-of-living increase, we should not expect large numbers in the next several months. It is also reasonable to suppose that the Congress will grant relief in ample time.

2. Nevertheless, until we actually obtain relief, we should husband our quota. Effective immediately, therefore, and pending relief, we should:
